#### b. Operating Budget

M. Pruhenski, as requested, presented three tiers of hypothetical budget reductions of \$100,000, \$250,000 and \$500,000. He recommended that free cash remain at \$1m where it is currently due to reductions in the operating budget and revenue not being as strong as in the past. He also stated that for the Building Department, town partners will be billed before June 30. Regarding cuts for the three tiers, he noted to achieve these cuts both program expenses and staff/FTEs would have to be reduced. He also shared information on the impact of these cuts on the tax rate noting that lowering the budget increase percentage provides only nominal reductions in the actual tax rate ranging from 5-25 cents. It was confirmed that for the the Town would be reimbursed for Building Department expenses. There was consensus that there should not be cuts in staff/FTEs and there was discussion about cutting budget for youth programs and veterans. S. Bannon stated the hypothetical cuts shows the biggest issue is debt service and revenue.

It was agreed that there should be a review/discussion of the operating budget and any cuts prior to the public hearing. Each line item cut was detailed and discussed in depth to determine if it should be accepted, revised or restored.
