3. Road Project / Redesign

Chris provided an update about the design, as well as the outreach timeline, based on his latest discussion with the Engineering team.

Ward will check with the website designer to ensure we can upload content.

Rembold will develop the first draft of outreach narratives.

There was a discussion about the design width of the new recreation path, why it needed to remain passable for emergency and utility vehicles, and that that it should be moved as far from the lake edge as possible.

There was a discussion of what the bank stabilization would consist of. All agreed it should be natural, for aesthetics and because simply using hard solutions would not be permitted.

Ward mentioned the following ideas for her spring newsletter:

1. Road planning and outreach including how to interact and the project timeline;
2. Water quality study – CPA funding application;
3. 2021 work day;
