2023 Holiday Shop, Sip & Stroll

The Southern Berkshire Chamber is requesting permission to have this year’s Holiday Stroll, scheduled for Saturday, December 10, 2023. Have a full calendar of events with 26 activities planned, all FREE and accessible to prevent barriers for anyone in our community.

We request the use of the four parking spaces at the base of Railroad Street for our Hayride Loading and unloading. We request the use of the 4 parking spaces on Main Street, two on each side of the entrance to the Congregational Church parking lot. Also, the five parking spaces in front of the Town Hall to the north side. We would like to use the steps of the Town Hall for the menorah and Town tree lighting and would need the use of the podium and power.

As always, we truly appreciate the help from the Town Hall, GB DPW, GB Fire Department, GB Highway Department and the GB Police.

I have included the list of activities and the event map as it is at this moment.

Thank you.

Betsy Andrus

PERMIT FOR ACCESS TO A PUBLIC WAY / DRIVEWAY

Pursuant to its vote of _______ in favor and _______ opposed, at its meeting on ____________________, the Great Barrington Selectboard granted permission to construct or alter this access to a public way at the address and in the location indicated in this application, in accordance with the plans accompanying this application, and subject to any conditions attached.

For the Selectboard: ____________________________, its ___________________________. ____________________________
September 27, 2023

To the Selectboard of the Town of Great Barrington:

I am submitting this application for a curb cut on the south end of the frontage of 304 North Plain Road in order to provide farm and forest management access to the south side of the property.

After speaking with the Building Inspector (Ed May), it is not clear that a permit is actually required since this access point existed prior to my parents’ purchase of the property in 1969. However, use of this access has been infrequent over the years – the last regular use being in the 1980s when my father was actively doing timber stand improvement in the areas that we are now returning to work. It was agreed in my conversation with Ed that the most prudent and above board way to proceed was to simply apply for this permit to answer any questions the town may have.

We do not wish to disturb the existing Town Right of Way or its existing drainage. The roadside is already very solid, level, and clear with adequate drainage. Our property drains away from the road, so we do not expect any significant change related to drainage. Visibility at that point is very good. Since use will remain intermittent, we do not anticipate enough traffic to warrant modification within the Right of Way.

On our property that abuts the Right of Way (at the treeline), we intend to remove a small amount of topsoil (and problematic rocks) at the access point and replace the material with gravel to improve drainage and stability. Any topsoil or gravel remaining will be redistributed and graded on site within the landing area. We would use only one or two trucks of processed gravel (20-30 tons) – just enough to stabilize the access to the core of the landing. The intent is to have as minimal a visual impact as possible and let the access fully blend back into the landscape as it regrows through time.

This access is necessary for planned work in the southern half of the property. We are a highly diversified, permaculture-oriented farm that is developing a variety of forest products in its product mix. We are entering the second year of a forest management plan that includes selective cutting of timber and increased removal of invasive species in this area. Use would be light and intermittent with short periods of higher activity (such as during log harvest). The woodlot is managed in ways that try to minimize any impact on the neighborhood.

It should be noted that there are two other driveways that service this property (one on either side of the farmhouse). These drives provide adequate access to the main farm and the north side of the woodlot. The curb cut being applied for is intended to provide better access to the south.

Thank you for your time and consideration.

Subject: Driveway Permit Application, 304 North Plain Road

Dear Selectboard,

Be advised this Driveway Permit Application for 304 North Plain Road would constitute the third driveway to this parcel which is not consistent Article II, Access to Public Ways. (Attached)

The easterly edge of Route 41, North Plain Road at this location is quite often wet. The applicant is proposing no improvements to the driving surface off the edge of North Plain Road within the Town Right of Way, this would equate to wet soils being tracked into the road.

Given the information provided, the DPW would recommend against issuing this driveway permit.
