

About Community Impact Funding

What is it?

Community Impact Funding (CIF) is money collected by the town from cannabis dispensaries and designated for things that are “reasonably related to the costs imposed upon the municipality” by the dispensary. The dispensaries in town agreed to pay 3% of total gross sales into Community Impact Funding for 5 years.

How are funds distributed?

The CIF Committee advises the Town Manager on how best to allocate funds. The CIF Committee is committed to serving town residents across demographics (including income, ability, age, gender, and race). The Committee welcomes proposals from all entities—individuals, organizations, town committees, and town departments.

How much money is available for funding?

This year the Town has allocated \$500,000 to be distributed from this fund.

What kinds of projects qualify for funding?

According to the agreement between the town of Great Barrington and the dispensaries, “the Town shall use the above referenced payments in its sole discretion, but shall make a good faith effort to allocate said payments for road and other infrastructure systems, law enforcement, fire protection services, inspectional services, public health and addiction services and permitting and consulting services, as well as unforeseen impacts upon the Town.”

The CIF Committee has identified the following category for funding:

- **Health and safety (particularly of our youth)**—Negative health impacts associated with cannabis use have been established, especially in adolescents whose brains have not fully developed. With dispensaries located in highly visible locations in town and the increased possibility that cannabis use is occurring in their homes, youth need reliable education regarding cannabis more than ever. For adults who struggle with substance use, the impact of readily available cannabis needs to be addressed.

What are the criteria for consideration?

Projects must address the above category. Priority will be given to:

- Organizations based in Great Barrington
- Programs that benefit a large number of people, especially Great Barrington residents

When are applications due?
