Permitting and Development Guidebook

An User’s Guide to the Permitting and Development in Great Barrington

The Project
The People
The Permits
The Process

2016
Introduction

Great Barrington is a small town of roughly 7,000 people, nestled in the Berkshires of Western Massachusetts. The Town offers a thriving downtown, the unique village of Housatonic, historic sites and neighborhoods, and beautiful scenery. Maintaining this quality of life and ensuring the health and safety of all of our residents is a top priority of the Town; thus we take very seriously our duty to enforce building, zoning, historic, and environmental regulations.

This booklet provides you, the Applicant, with a “how to” roadmap to guide you through the permitting, construction, and land development process. You may be a homeowner looking to build a new house or simply add a deck. You may be a developer looking to build a commercial building. Your project may require crossing over a wetlands resource area. Whatever the Project, this Guidebook will help you. This Guidebook introduces you to the People who are here to assist you identify and obtain any Permits you might need. Finally, this guides you through the Process to follow to obtain those permits. It explains the roles of the Town’s various departments and boards, their roles, the types of permits they issue, and how they all interact.

This Guidebook provides you with the information you need to proceed with a “typical” application. This is not intended to cover every situation that occurs. If your project is more complex, requires multiple permits from a different boards, please call the Building Inspector or Town Planner for guidance. The Town has tried to make this Guidebook as complete and as up to date as possible. However, please note that required permits and timelines sometimes change. Thus we suggest you always call the appropriate Town staff person. We can help you make sense of the process.

Whether you are a homeowner, developer, or someone looking to relocate to our wonderful Town, we hope this Guidebook saves you time, money, and headaches.

The Project

Most construction projects—whether for houses, garages, commercial buildings, or even driveways, require some type of permit. You will at least need a building permit. If you are a business or a home occupation, you might need a sign permit. If the use is permitted only by a special permit in your zoning district, then you will need a special permit. If you are near a wetland or river, you might need a permit from the Conservation Commission. Some or all of these instances, and perhaps others, may apply to you.

The more research you do in the planning stage, the easier it will be to meet all requirements in a timely, efficient, and cost effective manner. Do your homework first. This will greatly increase the likelihood that your project and design are approved, and reduce your risk of having to make significant and expensive changes later on.

The information in this section and in the Appendix can help you determine what permits you will need. If you have any questions, call us! The best place to start is usually the Building Inspector or Town Planner. You can also use the free online interactive maps on the town’s website to find your property and investigate its characteristics.

As soon as you know the location and approximate size of your project, and the use(s) to which it will be put, seek advice from the Town’s professional staff. Again, the best place to start is usually the Building Inspector. We can tell you if your project seems feasible and what changes might be needed. We will also explain which permits you are likely to need, roughly how long it will take to get them, and whether public hearings will be required.

The People

You will most likely be working with the following Departments (staff) and Town Boards (elected or appointed officials) in order to obtain your permits:
**Building Department**

Edwin May  
Building Commissioner  
20 Castle Street (the old Fire Station)  
Phone: (413) 528-3206.  
Email: emay@townofgb.org  
Office Hours: Mon, Tues, Thurs, and Fri, 8:30am-11:00am. Closed Wed.

This is the gateway for all applicants, and it is the First Department You Should Contact if you are building or developing! The Building Inspector enforces the Town of Great Barrington Zoning Bylaw, the Great Barrington Town Code (general regulations, including signs), and the Massachusetts State Building Code. This office also issues building, electrical, plumbing, and gas permits, conducts inspections, and issues Certificates of Occupancy. This office also issues sign permits. Finally, the Building Inspector, Town Planner, or Town Clerk can help you determine whether there are already variances or special permits that apply to a property.

**Planning Department**

Christopher Rembold  
Town Planner  
Town Hall, 334 Main Street  
Phone: (413) 528-1619, x.7  
Email: crembold@townofgb.org  
Office Hours: Mon – Fri, 8:30am-4:00pm

The Planning Department guides residential and commercial development proposals through the permitting processes outlined in the Zoning Bylaw. It coordinates multi-departmental reviews of projects (see Development Review Team, below), coordinates any and all Special Permits and Site Plan Review applications, and assists the all of the Town’s regulatory Boards by summarizing proposals and drafting Findings of Fact. The Planning Department also evaluates proposals for their consistency with the Town’s Master Plan, and, with the Town Manager, coordinates economic development.

**Assessor’s Office**

Chris Lamarre  
Principal Assessor  
Town Hall, 334 Main Street  
Phone: (413) 528-1619, x.5  
Email: clamarre@townofgb.org  
Office Hours: Mon – Fri, 8:30am-4:00pm

Among its many functions, the Assessor’s Office maintains all tax (parcel) maps and tax records, including owner’s names and addresses, and generates the Abutters Lists required for public hearings.

**Selectboard**

Helen Kuziemko  
Administrative Assistant  
Town Hall, 334 Main Street  
Phone: (413) 528-1619, x.2  
Email: hkuziemko@townofgb.org  
Office Hours: Mon – Fri, 8:30am-4:00pm  
Meetings: 2nd and 4th Monday, 7:00pm

The Selectboard is an elected five member board and is the official governing body of the Town of Great Barrington. The Selectboard are the primary policy and goal-setting body for the Town. The Selectboard issue licenses and permits for weekday and Sunday entertainment (events), for alcohol sales, for auctions, for automobile sales, and are the Granting Authority for most Special Permits.

**Conservation Commission / Conservation Agent**

Shepley W. Evans  
Conservation Agent  
Town Hall, 334 Main Street  
Phone: (413) 528-1619, x.122  
Email: conservation@townofgb.org  
Office Hours: Tues, Thurs, 8:30am-3:00pm  
Meetings: 4th Wednesday, 7:00pm

Do Not Bypass This Step! The Conservation Commission administers the Massachusetts Wetlands Protection Act, Massachusetts Rivers Protection Act, and the Massachusetts Scenic Mountains Act. The “Cons. Comm.” can tell you if your project falls within its jurisdiction and advise you on obtaining any needed local, state, and federal permits. Conservation impacts are not always apparent; however any work within 100 feet of a wetland or 200 feet of a stream or river requires the review of the Cons. Comm.

**Department of Public Works**

Joseph Sokul  
Superintendent of Public Works  
Town Hall, 334 Main Street  
Phone: (413) 528-0867  
Email: jsokul@townofgb.org  
Office Hours: Mon – Fri, 8:30am-4:00pm

DPW includes Highway, Wastewater, Parks and Cemetery Divisions. Call the DPW on questions regarding new driveways and access roads, locations of underground utility lines such as sewers, and the removal of public shade trees. You must contact the DPW if you intend to connect to municipal sanitary sewer or to the stormwater drainage system. The four DPW divisions are Highways, Public Buildings, Cemeteries/Parks, and Sewer. For connections to public water supply, contact either the Great Barrington Fire District or the Housatonic Water Works.
Design Advisory Committee

Edwin May
Building Commissioner
Town Hall, 334 Main Street
Phone: (413) 528-3206
Meetings: at call of the Chair

All new structures, alterations or additions to existing structures in the Downtown B district or Village Center Overlay District which affect the exterior architectural appearance of a building are subject to review by the DAC. The DAC provides design recommendations to the applicant prior to the issuance of a building permit or special permit.

Development Review Team

Christopher Rembold
Town Planner
Town Hall, 334 Main Street
Phone: (413) 528-1619, x.7
Email: crembold@townofgb.org
Office Hours: Mon – Fri, 8:30am-4:00pm
The DRT usually meets every other Tues. morning

Once you have your ideas and plans roughed out, you can often avoid delays and costly changes by scheduling an informal review with the DRT. The amount of detail you need for your plan varies according to the permits you require, but in general at least a rough building and site layout, including parking and relationship to adjacent buildings, is an appropriate start. Applicants are strongly encouraged to schedule a meeting with the DRT prior to, and hopefully well in advance of, submitting applications to the Town Boards for special permits, subdivisions, etc. We will guide you through the application process, and flag potential issues prior to you preparing detailed plans.

Fire Department

Charles Burger
Fire Chief
Fire Station, 37 State Road
Phone: (413) 528-0788 (office)
Emergency: 911
Email: cburger@townofgb.org
Office Hours: By appointment, Mon – Fri, 7:00am-3:30pm. Best time to call is 7:00 - 8:00am

The Fire Dept. issues storage and use permits for hazardous materials and underground storage tank permits. The Fire Dept. conducts smoke detector and sprinkler system tests, and assists the Building Dept. by reviewing plans for building permits. The Fire Dept. is the local enforcement and permitting agency for the Regulations of the Massachusetts Board of Fire Prevention, as noted by 527 CMR 1.

Health Agent / Board of Health

Jayne Smith
Health Agent
20 Castle Street (the old Fire Station)
Phone: (413) 528-0680
Email: jsmith@townofgb.org
Office Hours: Mon – Fri, 8:30am-4:00pm
Meetings: 1st Thursday, 7:00pm

The Board of Health enforces State and local health and some environmental codes. This includes permits for septic systems, wells, demolition, food establishments, lodging, swimming pools, camps, special events and various licenses.

Historic District Commission

Daniel Bailly, Chairman
Town Hall, 334 Main Street
Phone: (413) 528-5126
Meetings: 3rd Monday or call of Chairman

No building or structure in a Historic District may be constructed, altered, or demolished in a way that affects the exterior features, unless a certificate is obtained from the HDC. See Chap 113 of the Town Bylaws for district boundaries and regulations.

Parks Commission

Carolyn Wichmann, Secretary
Town Hall, 334 Main Street
Phone: 413-528-3206
Email: cwichmann@townofgb.org
Meetings: 2nd Monday, 5:30, Mason Library

The Parks Commissioners administer the Town parks, ball fields, and beaches, including recreational programs. Use of Town parks and beaches for events requires permission of the Parks Commissioners.

Planning Board

Christopher Rembold
Town Planner
Town Hall, 334 Main Street
Phone: (413) 528-1619, x.7
Email: crembold@townofgb.org
Office Hours: Mon – Fri, 8:30am-4:00pm
Meetings: 2nd and 4th Thursday, 7:00pm

The Planning Board is an elected five member board, whose responsibilities are outlined by Mass. General Law and include but are not limited to the following: Approving subdivisions and ANR plans; Serving as Site Plan Review authority; Serving as a special permit granting authority and recommending Board on all other special permits; Drafting zoning amendments for Town approval and holding public hearings on zoning amendments; Approving common driveways; and, Adopting a master plan for the town.
The Police Department is responsible for safeguarding the life and safety of the public. In terms of permitting and development, the Police Department must approve temporary road closures and any traffic detours and police details for traffic safety. These issues often arise when structures are demolished, large cranes, dumpsters, etc. are placed in a sidewalk or roadway, or trees in or near a roadway are removed.

The Town Clerk is the official record of all applications and decisions for all subdivisions, special permits and variances. It is the Clerk’s time stamp that starts the clock that tolls the official review period for special permits and variances. All businesses operating in Great Barrington must register with the Town Clerk. In addition, marriage licenses, dog licenses, raffle permits, & copies of Town Bylaws and regulations, may all be obtained from the Town Clerk.

The Town Manager is the Chief Administrative Officer of the Town and oversees all town staff. This office coordinates permits for a variety of licenses required by local and State regulations, including but not limited to weekday and Sunday entertainment licenses, and liquor licenses.

The Zoning Board of Appeals (ZBA) is an elected five member board, with two alternate members. The ZBA has the power to hear and decide appeals by persons who have been unable to obtain a permit or enforcement action in accordance with Great Barrington's Zoning Bylaw and related zoning provisions of Massachusetts law. The ZBA has the power to decide on applications for variances from the Bylaw and applications for special permits under the "grandfather" provisions of the Bylaw. It is the authority for “40B” Comprehensive Permits.

The Permits

The charts in this section summarize the permits that are needed for specific projects. Remember, these permits are required in order to protect for your health and safety and the health and safety of your neighborhood. Never work without a permit if you need one. If officials discover that you have done work without a permit, you will be required to stop the work and dismantle or reverse the work, all at your own expense. If you are wondering whether or not you need a permit, please call and ask us.

You probably need a building permit if you plan to . . .
- Change the footprint of your house and/or dig any foundation
- Move a load-bearing wall
- Alter the roofline
- Create a new door or window opening
- Replace an electric stove with a natural-gas model
- Move a sink
- Install new electrical wiring
- Build a garage, barn, shed, or deck
- Install a fence or swimming pool

How do I know if a permit or review is needed?
A good rule of thumb is that any work that builds a new structure or alters walls or roofs requires a building permit. Also, garages, sheds, fences, decks, and swimming pools require building permits. Sometimes, depending on the project site and characteristics, other permits might be needed. Your best course of action is to ask first—the Building Inspector can help you determine exactly which permits apply to you.
What if I want to construct a new home or new business?
New construction sometimes requires one or more permits, depending on the size, location, and proposed use of the structure. Your first step should be to consult the Building Inspector. The Building Inspector will discuss with you the property improvements you propose, and what the typical permit requirements are. The Building Inspector will inform you of other regulations, like environmental regulations, wetlands, etc. that might apply to your site. He will also guide you to the Zoning Bylaw, which specifies minimum lot area, setbacks for front, rear, and side yards, and permitted uses in specific districts.

How do I know what laws apply to my project?
Call the Building Inspector or Town Planner for help in determining the various laws and regulations that govern your project and your site.

What is Zoning?
All property in Great Barrington is classified into a zoning district. These districts are located on the official Zoning Map, which can be found in the Zoning Bylaw, on the town website, or on the free online interactive maps. These districts define the uses that are allowed in that district by right or by special permit (see Section 3 of the Bylaw). Each district also has specific regulations for lot frontage, building height, and yard setbacks (see Section 4). Specific regulations for parking (see Section 6), various commercial uses (see Section 7), and residential uses (see Section 8) further guide development. There are also several “overlay” districts that stipulate additional development controls in some areas of town such as floodplains, downtown, and the Housatonic mills (see Section 9).

What is the difference between the Zoning Code and the Building Code?
Zoning regulations are established by the Town. Zoning determines the types of structures and uses that are allowed in each zoning district. No matter where your property is located in town, it is subject to some type of zoning.

The Building Code is established by the Commonwealth of Massachusetts and applies to all structures and buildings, no matter the use or location. The Building Code sets the minimum safety standards to protect the health and safety of the building occupants and neighbors.

What if my proposed structure or use is not allowed by the Zoning Bylaws?
Some uses are not allowed, and others are allowed only with a Special Permit. A Special Permit means that the use is not normally permitted, but the Town will consider allowing it if it meets certain criteria and is judged to be an overall benefit to the Town. Sections 10 and Section 3 of the Zoning Bylaw outline the process and the uses subject to Special Permits. In other cases, when a proposed structure cannot fit properly on a lot, a Variance may be required. Please contact the Building Inspector or Town Planner for more information.
## COMMONLY REQUIRED BUILDING, ZONING, & ENVIRONMENTAL PERMITS

<table>
<thead>
<tr>
<th>Permit</th>
<th>When Required</th>
<th>Issuing Authority</th>
</tr>
</thead>
<tbody>
<tr>
<td>Building permit</td>
<td>This is the last permit you must get before starting construction. All other permits must be in place at this time. The Building Inspector conducts final zoning compliance and reviews building and construction plans for compliance with the Massachusetts Building Code and handicapped access standards. New construction and alterations. If you are doing work that opens or alters walls in all probability you will be required to apply for a permit. Additionally, construction of sheds, fences, decks, pools all require permits.</td>
<td>Building Inspector</td>
</tr>
<tr>
<td>Common Driveway permit</td>
<td>If the new driveway will serve more than one dwelling unit (and no more than three units), it requires a permit from the Planning Board. The design is reviewed by the Highway Superintendent, Fire Chief, Conservation Commission, and Planning Board. A common driveway opening onto a State Highway also requires a permit from Massachusetts DOT. Altering or opening a new shared driveway</td>
<td>Planning Board</td>
</tr>
<tr>
<td>Design Review</td>
<td>New construction, exterior changes, or substantial changes to buildings within the downtown B district and the Village Center Overlay District require design review. This is intended to ensure the design is in keeping with the character of its surroundings. New construction, changes to exterior of a building within the downtown area</td>
<td>Design Advisory Committee</td>
</tr>
<tr>
<td>Dig Safe</td>
<td>State laws require anyone who digs to notify utility companies before starting, and for good reason. Dig Safe is a free hotline assisting excavators, contractors and property owners by notifying the utilities before digging. Any excavation on public or private property. Excavation includes movement or removal of earth, rock or the materials in the ground, whether for foundations, utility lines, test borings, grading, or any other purpose.</td>
<td>Call 1-888-DIG-SAFE</td>
</tr>
<tr>
<td>Driveway permit</td>
<td>Constructing a new or altering an existing driveway access to a Town road requires a permit from the Selectboard. The design is reviewed by the Highway Superintendent, Fire Chief, Conservation Commission, and Town Planner. Driveways on State Highways require permits from Massachusetts DOT. Altering or opening a new driveway</td>
<td>Selectboard</td>
</tr>
<tr>
<td>Nonconforming Use or Structure</td>
<td>If the use of your property or the location and size of your structure does not conform to the Zoning bylaws, any change of use or alteration of the structure may require a special permit from the Zoning Board of Appeals. Alteration of a nonconforming use or structure</td>
<td>Building Inspector, or Zoning Board of Appeals</td>
</tr>
<tr>
<td>Scenic Mountains Act</td>
<td>A Notice of Intent (permit application to Conservation Commission) is required when clearing (including logging) and new development in any mapped Scenic Mountain Area. Land clearing in designated areas. See Conservation Commission webpage</td>
<td>Conservation Agent</td>
</tr>
<tr>
<td>Septic systems</td>
<td>New septic systems and repairs or replacement of old systems must be done per Mass. Title V regulations, administered by Board of Health to ensure that wastewater does not contribute pathogens or otherwise endanger surface and ground waters, drinking water supplies, wildlife habitat, and surface water. New septic systems; repairs or replacement of existing septic systems.</td>
<td>Health Agent</td>
</tr>
<tr>
<td>Sewer connection</td>
<td>Projects that connect to the Town’s system to discharge household wastewater must obtain a permit from the Health Agent and a permit from the DPW, Wastewater Division. These permits ensure that new connections are done properly and increased volumes do not overwhelm the capacity of the system. New connection to municipal sewer</td>
<td>Health Agent and Dept. of Public Works, Wastewater Division</td>
</tr>
<tr>
<td>Sidewalk Cafes and Sidewalk Vendors</td>
<td>Any person or business wishing to utilize sidewalks for cafes / outdoor dining or for the placement of merchandise displays for sale must obtain a permit from the Selectboard. Use of sidewalk for outdoor dining or merchandise displays.</td>
<td>Selectboard</td>
</tr>

<td>Development within 100 feet of a wetland / Development within 200 feet of a river / Development within 500 feet of a public drinking water source</td>
<td>Conservation Commission</td>
</tr>
</tbody>
</table>

### The Process

The flowcharts and diagrams that follow illustrate the application and review process for typical permits. These reviews and timelines are governed by local and state laws. Applicants are reminded that several permits may be required for a project. All applicants are encouraged to speak with Town staff before applying for permits. We can help you understand the required forms, the process, and the review criteria.

Call us! We’re happy to help!
Using the new Great Barrington online mapping system:

1. Go to [http://maps.massgis.state.ma.us/map_ol/great_barrington.php](http://maps.massgis.state.ma.us/map_ol/great_barrington.php) or follow the link on the Planning Department page of the town website ([www.townofgb.org](http://www.townofgb.org)).

2. Enter a street address to fly to the area of interest. Be sure to include the zip code. To browse around, simply use the zoom controls. Use the four-sided arrow symbol to pan around the map.

3. Change the base map if you want. Aerial imagery and topographic lines can be viewed. Go to the bottom right corner of the map window to see the available base map options. Only one base map option is available at a time.

4. Once you have zoomed in on an area, you can begin adding different layers of data. Go to the top right to the Available Data Layers window on the top right. Open each folder by double clicking to see what data is available.

5. As a default, roads, parcel lines, and buildings will be shown. If you are zoomed in close enough, the address of the lot will be shown.

6. When you find the layer, like Zoning, click that layer name and it will be added to the map. The layer is added to the Active Data Layers window on the middle right portion of the screen. You can add as many data layers as you want.

7. Please note that on some smaller screens, you might not see this Active Data Layers window. You will need to hover your mouse until it changes to the double arrow / double line icon, then drag it to enlarge or shrink the window panes.

8. Sometimes the layers you add are opaque, and you cannot see through them to the parcel you are interested in. You will need to change the opacity of the layer. To do this, right click on the layer in Active Data Layers. Using the slider bar under Opacity, adjust it from 100% towards 0% and it will become more transparent.

9. When you want more information about a parcel, click the blue information button and then click on the parcel you are interested in. A window of information will pop up, and the various active data layers will be searched.

For example, if you want to know the owners name, the size, the parcel ID numbers, and valuation, click on the Tax Parcels for Query line and the data will load in a window pane called Feature Details. Use the scroll bar to slide the resulting detail table to the right to see all the information. This is the information from the Great Barrington Assessor’s most recent fiscal year.
10. The best way to print is to use the Print function of your internet browser (File, Print. Or, Control P). You can save the pictures as a picture file but it is a bit more complicated. If you have the ability, either create a PDF directly, or instead of choosing to print to your local printer, print to Adobe PDF.

If you don’t have the PDF ability, then you’ll have to press Alt and Print Screen. This copies the image to your computer clipboard. Open a document file or a slide and Paste the copied screen image into the document or slide. Then save or print that document or slide file.
BUILDING PERMIT PROCESS

START HERE

1) Project is proposed. Applicant contacts the Building Inspector.

2) The Building Inspector determines whether the proposed use is allowed in the zoning district.

   Yes, the use is allowed.

   The use is not allowed. STOP. You may want to revise the project and start again.

   The use is allowed only by Special Permit.

3) Will the land be subdivided?

   Yes, the land will be subdivided.

   Read the Subdivision regulations. Contact the Town Planner. Subdivision adds 3 months or more.

   No the land will not be subdivided.

   Read the Special Permit regulations. Contact the Town Planner. Special Permit adds 2-3 months.

4) Applicant is encouraged to meet with staff Development Review Team (DRT) to informally discuss plans, and receive input regarding other possible requirements. Contact the Town Planner.

5) Are any other permits or approvals required? The DRT will help you determine this.

   No the land will not be subdivided.

   Yes, the land will be subdivided.

   Other permits are required. Go to step 6.

   Other permits are not required. Go to step 8.

6) Applicant files for other required permits. (Special Permit, Subdivision, Site Plan Approval, Wetlands permits, Historic District, Village Center Design Review, new septic system, new driveways, etc...)

7) Other required permits and approvals are received.

8) Applicant files application for Building Permit. (Be sure to read instructions and include all required information.)

9) Application is deemed complete, includes fee payment, and is stamped received. 30-day clock starts.

10) Plan review. 30 day maximum. Plan review includes:

   Tax status is checked (2 days – 1 wk)

   Fire Chief review: alarms, smoke detectors, carbon monox., sprinklers, etc. (10 days)

   Conservation Commission review: wetlands and rivers regs, endangered species, etc. (1 wk)

   Board of Health review: health code, wells, septic, housing code, etc. (1 wk)

   Zoning review: zoning code, water quality district, floodplains, scenic mountains, existing special permits, MGL Ch 40A, etc. (1 wk)

   Building Code review: structural and engineering, energy, accessibility, fire, plumbing, electrical, mechanical, etc. (1 wk)

11) Post plan review. Building Inspector gathers all information from Plan review and issues decision.

   Permit is denied. Reason / relevant code section is cited. STOP.

   Applications is valid, OK'd, and permit is processed (each Wed. a.m.). PROCEED to step 13.

12) Inspections process

   Inspections passes.

   Inspection fails or is missed. Redo work. Re-inspect.

13) Clerk calls Applicant to pickup the processed permits.

14) Applicant signs for permit, indicates understanding of inspection process that follows.

15) Contractor calls to schedule necessary inspections when work is ready.

16) Inspection is scheduled.

17) Proceed to next inspection. Repeat 15-17 as necessary.

18) Final inspections are passed.

19) Construction is complete. Assessor is notified. Certificate of Occupancy is issued. Congratulations!
TOWN OF GREAT BARRINGTON
PLANNING BOARD’S SITE PLAN REVIEW PROCESS

PROJ ECTS AFFECTED:
1. Construction, exterior alteration or exterior expansion of, or change of use within, a municipal, institutional, commercial, industrial, or multi-family structure;
2. Construction or expansion of a parking lot for municipal, institutional, commercial, industrial, or multi-family structure or purpose involving more than 6 spaces; and
3. Grading or clearing more than 10% of a lot or 10,000 square feet, except as noted in section 10.5.1 of the Zoning bylaw.

One- and two-family residential uses do not require Site Plan Review.

For More Information
Contact the Town Planner:
(413) 528-1619, x.7 or crenbold@townofgb.org

* Note Site Plan Review is not the same as a Special Permit. Site Plan Review and Special Permits are separate applications, reviews, and decisions. If your project requires a Special Permit, contact the Town Planner.

START HERE *

1) Application is determined to be subject to Site Plan Review.
   * See Note, below left.

2) Application, including all plans and fee, is submitted to Town Planner’s office.

3) Town Planner reviews application for completeness.

4) Complete application is processed and stamped by Town Clerk. The 60-day review clock starts.

5) Applicant is notified of Development Review Team (DRT) meeting and of Planning Board meeting. Site visits may be conducted.

6) DRT meets with applicant and reviews site plan. DRT meets in the morning of the 2nd and 4th Tues. of each month.

7) DRT issues formal comments to applicant. The application, site plan, and DRT comments are forwarded to the Planning Board.

8) Planning Board meets and reviews the site plan. Applicant must attend the meeting.
    Planning Board meets at 7pm on the 2nd and 4th Thursday of each month.

9) Site Plan decision
   Site Plan is denied
   Site Plan is approved, or is approved with conditions.

Stop, Revise project and begin again.

Continue to Building Permit application.

Revised May 2010
DESIGN ADVISORY COMMITTEE (DAC)
Review Procedures

The DAC has review authority for:
- **VCOD zone**: All applications subject to VCOD (i.e. all changes to exterior of structures, new construction, replacement of an existing structure, and any substantial change to an existing structure (see Zoning §9.6))
- **B zone**: All new structures, alterations or additions to existing structures which affect the exterior architectural appearance of a building (see Zoning §9.5)

1. **Building Inspector** receives building permit or special permit application. Applicant must provide 7 copies for DAC.

2. Within 5 working days, **Building Inspector** notifies, by email or phone, each DAC member of application. Plans will be placed in a DAC box in the Town Clerk’s office.

3. **DAC Chairman** calls meeting, to be held within 20 days of application date, to review the plans with applicant.

4. **Design Review Standards** set forth in §9.5, as amended, shall guide the application and the DAC’s deliberations.

5. **Recommendation**
   No later than 30 days from the application, the DAC, by its Chairman or designee, shall transmit a brief report of the DAC’s recommendations to the SPGA and the Planning Board. If such report is not transmitted within 30 days, SPGA shall assume approval of application by DAC.
VILLAGE CENTER OVERLAY DISTRICT (VCOD)
APPLICATION PROTOCOL

1. **Applicant** consults zoning bylaws, zoning map, design guidelines, Building Inspector, and/or Town Planner

2. **Building Inspector** determines zoning applicability, required special permits, etc. and whether VCOD applies (see Zoning Sec. 9.6)

3. a. **Applicant** applies for building permit or required special permit(s) as applicable

   b. **Applicant** shall meet with staff Development Review Team before filing special permit (call Town Planner to arrange a meeting)

4. **Applicant** meets with DRT to identify key aspects of project and identify any possible issues that may arise

5. **Applicant** files for Special Permit(s) (using form SP-2). Call Town Planner to arrange meeting to file application.

6. a. **Recommending Boards** hold SP meetings (applicant must attend)

   b. **Design Advisory Committee** meets to review application (applicant must attend)

7. **Boards and DAC** send recommendations to the SPGA (Selectmen) (within 35 days of receipt of application)

8. **Selectmen** hold public hearing (no earlier than 40 days and no later than 65 days from application). Applicant must attend

9. **Selectmen** make decision (within 90 days of close of public hearing) and file final action with Town Clerk

10. **Appeals** (within 20 days after filing of decision) and/or **Recording of Permit** (after the 20 days)

11. **Selectmen** make decision (within 90 days of close of public hearing) and file final action with Town Clerk

12. **SP lapses** if not exercised within 2 years of #11

Note: If site is in a designated Historic District per Chap 113 of the Town bylaws, Applicant must also apply to Historic District Commission for appropriate certificate.

Timing and Procedures of Special Permit process are set forth in Mass. Gen. Law Chap. 40A

Please note: copies of the zoning bylaws, design guidelines, special permit forms, and special permit timelines are available on the Town’s website (www.townofgb.org), or call the Town Planner at (413) 528-1619, x.7
A preliminary plan is submitted to the planning board and board of health, and a notice of plan submittal to the City/Town Clerk, either by delivery in person or by certified mail. A copy of the plan must also be filed with the Board of Health.

Within 45 days of the plan submittal (Unless extended by written agreement between the planning board and the applicant that has been filed with the City/Town Clerk)

At least 14 days before hearing

The hearing is advertised in the newspaper and posted in the town hall. Notice is mailed to the applicant and abutting landowners.*

The hearing is again advertised in the newspaper*

The planning board holds a public hearing

*The hearing may be continued over the span of multiple meetings

Within 90 days of the plan submittal (Unless extended by written agreement between the planning board and the applicant that has been filed with the City/Town Clerk)

Within 20 days of the certificate filing

If a decision certificate (or a written agreement to extend the decision period) is not filed by the planning board with the City/Town Clerk within 90 days

Appeals must be filed with the City/Town Clerk.

*Construction may begin if an appeal is filed, but will be at the petitioners own risk.

City/Town Clerk issues certificate stating that the Planning Board did not act and that constructive approval is granted. The plan and certificate of constructive approval are delivered to the applicant by the City/Town Clerk.
